

The Third Annual Lumberjack Endurance Runs are complete!

This definitely was the best year in terms of weather and trail conditions for the event that had 48 Starters toe the line for distances of 100 miles (27 initially signed up), 100 kilometers (6 initially signed up), or 50 miles (13 initially signed up).

The 100 miler ended up with 17 finishers, or a 63% finish rate – this is the highest in the three years we have run this event and can be attributed to a combination of trail conditions and the determination of every competitor out there to keep moving forward.

Results for each of the 3 distances can be seen below (Note – people who dropped down from the 100 Mile or 100K are still listed as official finishers, but the change this year was that they did not count toward the top placing).

Start training for next year, and we will see you again in April, 2013!
